

I fear that what Sinclair Broadcast Group is doing-- forcing many of its stations to air a blatant anti-Kerry program so close to the election--does not serve the public interest. And actually this harms our public discourse. This points to the problem of large media corporations and how they might exert pressure on their stations. Journalistic integrity and DEMOCRACY are at stake here. I hope you will listen to citizens' reactions to this pressing issue and the need for voices from the community to be heard. Thank you.
